ABOUT ME

I am pursuing my B.Tech in Computer Science with a specialization in Artificial Intelligence. Currently, I'm in my third year. For the past two years, I have been deeply involved in Python, along with its libraries important for data science and machine learning. I have completed two internships as a Data Analyst. Recently, I have expanded my skill set to include front-end technologies. My goal is to pursue a career as a Full Stack Web Developer, also focusing on data science and machine leasrning
